SUMMARY

FullStack MERN Developer with over 2 years in web development and testing. Available for immediate start. Proven skills in designing, deploying, and optimizing web solutions, with a knack for troubleshooting and integration. Ready to bring my expertise and learn new technologies and adapt to the needs of each project.

EXPERIENCE

Mphasis

Nov 2021 – Mar 2024

Associate Software Engineer

Bangalore, India

- **Developed reusable UI components**, which cut down the development time for new features by 30%.
- **Implemented responsive design** for the company's finance platform, leading to a 10% increase in user engagement on mobile devices.
- **Enhanced the performance of key financial dashboards**, resulting in a 15% reduction in page load times.
- **Increased unit test coverage from 50% to 80%**, reducing the number of bugs found in production by 20%.

PROJECTS

TrueFeedback | [React](#), [shadcn](#), [Zod](#), [resend](#), [NextAuth](#), [AI integration](#), [Next.js](#), [MongoDB](#)

- Implemented user signup with email verification; users access the dashboard upon verification.
- Enabled anonymous messaging where users can receive feedback through a shared link without requiring senders to log in.
- Integrated Google Gemini model for AI-generated message suggestions to assist senders.
- Provided a user dashboard for viewing, managing, and deleting messages with an option to disable message reception.

TabNest - Browser Extension | [HTML5](#), [Bootstrap](#), [JavaScript](#)

- Enhanced browsing experience by automatically grouping tabs based on their domain names, providing a clean and organized view.
- Efficient tab management with features to save, restore, and delete tab groups, allowing users to easily revisit and manage their browsing sessions.
- User-friendly installation and usage with straightforward steps for setup and intuitive buttons for managing tab groups.

EDUCATION

Birla Vishvakarma Mahavidhyalaya

2016 – 2020

B.Tech - Electrical Engineering

Anand, Gujarat
